Reinertsen	N/A
Reinertsen	His knowledge of the material.
Reinertsen	He related to the students very well and understood when a certain topic might be hard to understand and explained them with very current and relevant examples. To be honest, he engaged my interest in the course more than Dr. McCord.
	Question: TA: Improvements
Reinertsen	N/A
Reinertsen	All the TA's sometimes lacked communication with each other leading him to not know some things he maybe should have known (not necessarily his fault, more the set-up of the classes fault).

Reinertsen	Great job.
